**Backend Development:**

Node.js, Express.js, Python, FastAPI, MongoDB, MySQL, PostgreSQL, Pinecone, Firebase.

**Machine Learning & AI:**

Pandas, Scikit-learn, TensorFlow, LangChain, Hugging Face, OpenAI API.

**Cloud & DevOps:**

AWS (Lambda, S3, EC2), Docker, GitHub Actions, Vercel, Cloudinary.

**Tools:**

Jest, GIT, GitHub, Jira, Postman, Figma.

## Work Experience:

### Frontend Developer
**Suadeo**                                                              **Dec 2023 – Present, Dubai, United Arab Emirates**

- Building scalable BI software using JavaScript, ReactJS, jQuery, and other libraries.
- Integrated AI-powered chatbot into the application, through conversational interfaces and real-time interactions.
- Collaborate with the backend team and integrate the ASP.NET Core APIs for effective client-server communication.
- Led component-based architecture and implemented reusable UI modules.
- Participated in Agile sprints, using Jira for task management and Git for version control.

### Full Stack Developer
**Lloyds Knight International**                                                              **June 2022 – Nov 2023, Pakistan**

- Developed full-stack web applications using React.js, Next.js, Node.js, and Express.js.
- Implemented API-driven architecture and JWT-based authentication.
- Managed CI/CD pipelines and deployments using GitHub Actions and AWS.
- Convert designs into responsive user interfaces using Ant Design and Tailwind CSS.
- Collaborated with cross-functional teams including designers, and fellow developers, to deliver high-quality software solutions, fostering a positive team environment through open communication.
- Delivered polished, production-grade interfaces across 4+ client projects.
- Worked in cross-functional teams under Agile methodology.
- Participated in the full life cycle of website development projects.

**Frontend Developer**
Nerds Studio                                                                      **Aug 2020 – May 2022, Pakistan**

- Developed responsive UI/UX designs in React.js using Figma, Material UI, and Bootstrap.
- Implemented efficient state management with Redux Toolkit and Context API.
- Contributed to React Native tasks for the development of Android and iOS mobile applications.
- Integrated RESTful APIs and handled dynamic front-end data rendering.
- Conducted unit testing using Jest to maintain high code quality.
- Applied SEO optimization techniques using Google Search Console to improve site visibility.

**Web Developer**
Freelancer @ Fiverr                                                               **March 2019 – July 2020, Pakistan**

- Delivered responsive websites for US-based clients using WordPress and Shopify.
- Built custom front-end interfaces using HTML5, CSS3, and Bootstrap.
- Customized themes to meet unique business needs with full cross-browser compatibility.
- Strengthened key soft skills including client communication, problem-solving, and attention to detail through remote collaboration.

## Education Summary:

- **Master of Science (MS) in Information Technology** – University of Gujrat *(2018–2021)* | **CGPA: 3.7/4.0**
- **Bachelor of Science (BS) in Information Technology** – University of Gujrat *(2014–2018)* | **CGPA: 3.37/4.0**

### Research & Publications

- **Title:** Ontology-Based Crime News Semantic Retrieval System
- **Published on:** Oct 31, 2023, | DOI: 10.32604/cmc.2023.036074

## Certifications & Achievements:

- Generative AI with LangChain and Hugging Face **— In Progress (Udemy, 2025)**
- React – The Complete Guide (Redux, TypeScript, Tailwind CSS) **— Udemy.**
- Certificate of Excellence – **University of Gujrat**

## Languages:

- English, Urdu, Hindi
